PROFESSIONAL SUMMARY

Full-Stack Java Developer with hands-on experience building web applications using Java, Spring Boot, React.js, REST APIs, MySQL, and JavaScript. Experienced in developing scalable backend services, database-driven applications, secure authentication, CRUD operations, API integrations, and responsive user interfaces through academic and internship projects. Proficient in Object-Oriented Programming, Spring MVC, Spring Data JPA, SQL, Git, and Agile development, with additional experience integrating AI/ML technologies and third-party APIs. Focused on writing clean, maintainable code and delivering reliable software solutions.

EDUCATION

Bachelor of Engineering (B.E.), Computer Science Engineering 11/2022 – 05/2026 | Tamil Nadu
University College of Engineering, Kanchipuram.
CGPA: 8.1

PROJECTS

BookIt – Full-Stack Appointment Booking Platform

Next.js | TypeScript | Node.js | Express.js | PostgreSQL | Prisma | Stripe | Twilio

- Engineered a full-stack appointment booking platform using Next.js, TypeScript, Node.js, Express.js, PostgreSQL, and Prisma.
- Implemented role-based access control, atomic database transactions, concurrency-safe scheduling, and double-booking prevention.
- Integrated Stripe payments and automated email/SMS/WhatsApp notifications to streamline booking and customer communication.

Deepfake Image Detection System

Python | TensorFlow | CNN | FFT | Streamlit

- Developed an AI-powered image classification system using Python, TensorFlow, CNN, and FFT-based frequency analysis.
- Performed data preprocessing, feature analysis, model training, validation, and evaluation using labeled image datasets.
- Deployed the trained deepfake detection model as an interactive Streamlit web application for image classification.

Full-Stack E-Commerce Web Application

Stack: Java, Spring Boot, React.js, MySQL, REST API

- Developed a full-stack e-commerce application using Java, Spring Boot, React.js, MySQL, and RESTful APIs with a structured backend architecture.
- Implemented user authentication, product management, shopping cart, checkout, CRUD operations, and database integration.
- Built REST API endpoints and an admin dashboard for inventory and order management using Spring Data JPA.

INTERSHIP

Full Stack Development Intern (Java)

06/2025 – 07/2025 | Chennai | Tamil Nadu
Approtech R&D Solutions, Tambaram

- Developed Pixpop, an AI-powered image generation web app using HTML5, CSS3, and JavaScript, integrating third-party AI APIs (Hugging Face, Stable Diffusion)
- Gained hands-on experience in front-end development, API integration, and testing within an Agile team environment

SKILLS

Programming Languages

Go (Golang), C, Python, Java, JavaScript

Database

MySQL, SQL

AI/ML (Exposure)

TensorFlow, CNN, Hugging Face API

Backend & APIs

Spring Boot, Spring MVC, Spring Data JPA, RESTful API

Tools & Platforms

Linux/Unix Terminal, Git, GitHub, Postman, VS Code, Docker.

COURSES

Full Stack Development

06/2026 – Present | Bengaluru | karnataka
KodNest
Currently pursuing intensive full-stack development training covering Java, Spring Boot, REST APIs, MySQL, React.js, and Git/GitHub, with hands-on project-based learning

CERTIFICATES

- Java with SpringBoot-Digisailor [↗](#)
- Cisco Certified Network Associate (CCNA)-1 [↗](#)
